

## 2015 GMC HD3500 4x4 with LANCE 855 slide in camper, solar, 55\$K, AZ

A great 4x4 expedition truck camper, with roof-top solar, dual 100-amp-hr batteries, 30-gal fresh water tank (plus 6-gal in rotopax) allows extended off-grid stays. Truck is a 2015 GMC HD3500 diesel 4x4, with 103k+ miles. Camper is a 2013 Lance 855. I am the only owner on both truck and camper. The camper is available separately from the truck, but not vice versa. The two together are available at a bundled price of **\$55,000**; the camper alone is **\$25,000**. The combined truck/camper has a very stable, comfortable drive thanks to the air shocks, sway bar, and Torklift tie downs – none of the “porpoising” and rocking encountered with the 2009 GMC HD2500 I used from 2013 to 2015.

### 2013 LANCE 855 \$25,000
