

Expedition Truck: Mercedes Benz 1428AF-EXP

FOR SALE

Base Truck:

- Swiss Fire Truck
- Well maintained
- Low milage
- 37,000km = 23,000 miles
- Perfect Condition
- No rust
- Always stored in dry and conditioned storage

Technical Details:

Engine OM422:

14.6l - V8 - 280hp - 1,050 Nm/775ftlb

Allwheel Drive

Crusing Speed @ 65-68mph / 8-10 mpg

Allison Transmission 4-speed / MT647

Differential lock in rear axle

Differential lock front/rear axle

High/Low gearing

Wheels 14R20

31,000 miles

Base truck - 1986

Conversion - 2019/20

Conversion:

Chassis:

- Removal of old (fire truck) build-ups, superstructures, attachments and control technology.
- Relocation of the complete compressed air system to the vehicle frame, including pressure tanks, relocation and replacing of the air dryer unit as wells as the four-circuit protection valve.
- Raising the chassis on front-axle (FA) / rear-axle (RA).
- Painting and waxing of the chassis, including cleaning and rust removal.
- Painting/varnishing of the rims.
- 2 stainless steel, lockable and polished storage boxes
- Relocating of the starter batteries in storage box.
- 2 new military high-performance starter batteries 2x12V serial = 24V
- Aluminum fenders.
- HUD 300 anti-diesel pest filter technology with fuel preheater and integrated hand pump are the advantages you get from HUD diesel filter 300. (to be installed)

Conversion:

Cab:

- Painting/varnishing of the driver's cabin in RAL 7035 color.

- Kitchen:

Domende 54qt refrigerator, electric compressor, cooler for RV, 12/24V DC and 90-250 AC, cooling to -4F. Kitchen faucet set and ceramic sink.

Cook top: 2-burner gas hob including gas tank.

Heating/AC/Freshwater:

- Heating:

Truma D6E with accessories. Wall chimney/exhaust. Tubing for warm air and outlets. Control unit in kitchen area, next to charge panels and freshwater controls.

- Air condition, additional heating:

Floor mounted air condition: Model Truma Saphir Comfort: 230-240V, 50Hz, cooling performance: 2,400W. Additional heating performance: 1,700W. Tubing for cold air and outlets.

- Fresh water:

3x water pump 12V. Incoming water 1x Shure Flow 12V and 5gal/min.

Pressurizing with Seaflo 55 series, 12V and 5.5gal/min. Piping for cold and hot water food safe, including fittings. Surge tank sized to be assembled into double floor bath/restroom. 3 freshwater tank capacity approx. 35 gal each tank. Water filter system, coarse filter, activated alcohols. 3x tank transponder for freshwater tanks. Shore water $\frac{3}{4}$ garden hose connector.

- Double-layer floor with two storages spaces below the floor.

Electric/Electronic:

- Victron Energy Multi Plus-II 24/3000/70-32. 3,000W, 32A, 24V/230V/120V inverter/charger.
- Victron Energy Smart Solar MPPT 100/50 TR solar charge controller.
- Victron Energy BMV 712 battery monitor, Bluetooth capable, visualization via app on smartphone possible.
- Victron Energy voltage monitor.
- Victron Energy Battery Combiner Cyrix 12/24 V, 230 A.
- Renogy Energy 320 W solar modules 24 V mono, 2 pieces (640Wp).
- Victron Energy Battery Switch PI 400 A EZ Mount DP (charge controller).
- Renogy 2x 12V / 200 AH AGM Deep Cycle Batteries.
- Switch panel for lights and water pump.
- Round instrument as gauge for freshwater tanks.
- Sockets in the kitchen 1x double, sleeping area 1x double.
- USB sockets with sockets in kitchen sleeping and seating area.
- Shore power socket with 120V/220V converter.
- DC Master 24 / 12-24 A for Truma heating, relay 24V / 500A.
- Two isolating switches (1x for charger/inverter, 1x for batteries).
- FI circuit breaker, Fuse distributor
- LED lights in sleeping area.
